

BILATERAL ARTIST RESIDENCY PROGRAMME

Institut Umění – Clube Português de Artes e Ideias

Czech Republic – Portugal

Prague - Lisbon

INTRODUCTION

Clube Português de Artes e Ideias hosts the artists within the programme's guidelines, with the support of the facilities shown below. The artists are accommodated at RE.AL and can choose whether to use the means and rooms made available to them in our Centre for Artistic Experimentation. Our headquarters is available for assistance during workhours on weekdays. All the facilities are accessible on foot or by public transportation.

If more information is needed, please use the provided contacts for Clube Português de Artes e Ideias. For more images, please visit our website www.artesideias.com (in Portuguese).

ARTIST ACCOMODATION – RE.AL

The visiting artist will be hosted at RE.AL. A workspace and a hostel, our partner RE.AL exists with the sole task of hosting and supporting independent artistic work. Established as a cultural association, it also gives its name to a dancing group, an atelier and a document centre.

The artists will be accommodated in an independent fashion, being handed the key to their room, which should be taken care of in an autonomous way. The visitor will have the chance to interact with other artists in the same situation and thus experiment in a healthy and motivating work environment.

RE.AL is located in the city centre, in Santa Catarina, one of the most typical neighbourhoods in Lisbon, close to the famous Bairro Alto and Chiado quarters, where Lisbon's vibrant cultural life is fairly concentrated.

CENTRE FOR ARTISTIC EXPERIMENTATION (CAE) OF CLUBE PORTUGUÊS DE ARTES E IDEIAS

Open since 2000, our Centre is located at the renewed Fábrica da Pólvora, in the nearby municipality of Oeiras, inside the Great Lisbon area. Designed for multidisciplinary artistic work, it boasts several rooms and equipment, that are available to young artists for project-development purposes.

The Centre has a total area of 2000 square meters, containing 3 workrooms, a gallery, a fully equipped showroom, studio and a computer area. In it, a large variety of audio and visual producing equipment is available for the working artists, as well as hardware and artistic material.

The surroundings are work-inspiring, being located in a complex that was once the imperial powder factory, now transformed into a city park and cultural hotspot.

The Centre for Artistic Experimentation is approximately 20 kms. away from Lisbon's city centre, and is reachable by train from the Rossio central station (10 minutes on foot from RE.AL).
